ITHRAN BEOR TURNO

1544 Corrales Ext., Puntod | 09269662797 | ithranbeorturno07@gmail.com | https://ithran-beor-alpha.vercel.app/

SUMMARY

A detail-oriented and motivated Information Technology graduate from the University of Science and Technology of Southern Philippines (USTP). Possesses practical, hands-on experience in Full-Stack Web Application Development using ReactJS, and Django, complemented by UI/UX design proficiency in Figma. Proven track record of delivering end-to-end features, from requirement analysis to system deployment, through both rigorous academic capstones and a comprehensive OJT internship. A reliable, adaptable team player with a strong capacity to translate complex technical requirements into user-friendly software solutions.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Frontend Development:** ReactJS, React Native, HTML5, CSS3, JavaScript
- **Backend & Database:** Django (Python), Supabase (Auth, Database, Backend services), RESTful APIs, CRUD Implementation
- **UI/UX & Design:** Figma (Prototyping, Wireframing, User-Centric Interfaces), Canva
- **Systems & Tools:** System Analysis, Requirement Gathering, Agile/Team Collaboration, Git/Version Control
- **Soft Skills:** Strong Technical Communication, Client Relations, Problem-Solving, Team Collaboration, Highly Adaptable

WORK EXPERIENCE

UNIVERSITY OF SCIENCEAND TECHNOLOGY OF SOUTHERN PHILIPPINES (USTP) – CITC DEAN'S OFFICE

OJT Intern | Full-Stack Developer & Administrative Support | February 2026 – May 2026

- **Full-Stack Development:** Collaborated within an agile team to develop iPerform (a faculty evaluation portal) and the CITC Portal, specializing in UI/UX enhancements, dynamic category rendering, and role-based filtering systems.
- Feature Optimization: Resolved critical technical debt by implementing pagination fixes, site-wide search improvements, and a PDF export functionality.
- **Backend Engineering:** Managed backend modules for ExamSync V2 using Django; successfully built and deployed drag-and-drop scheduling, section assignments, faculty account management, and automated email notifications to proctors.
- **Database & Integration:** Executed relational database migrations using Django and assisted with the system integration of SyllabEase and the GreenWatts platform merging.
- **Digital Asset Design:** Designed high-fidelity digital assets using Figma and Canva, producing official CITC virtual backgrounds, Facebook headers, and presentation templates for operational benchmarking.
- **Administrative Operations:** Streamlined office operations by routing documentation, encoding Graduate Tracer data, and processing graduation applications across four computing programs (BSIT, BSCS, BSTCM, BSDS).
- Maintained direct accountability and reporting under the supervision of Dr. Junar A. Landicho (USTP CITC Dean), Mr. Dario Cruz Miñoza, Mr. Marlon Tumamak, and Ms. Amavell Joy Palomo (Dean's Secretary).

RIO'S PHARMACY CAGAYAN DE ORO CITY

Family's Pharmacy Assistant (Part-Time / Sideline) | December 2023 – June 2025

- Managed customer transactions and supported pharmacy practitioners with daily inventory workflows.
- Maintained strict organization of medical supplies and shelf compliance, building strong personal discipline, reliability, and precision under retail regulations.

EDUCATION

UNIVERSITY OF SCIENCE AND TECHNOLOGY OF SOUTHERN PHILIPPINES (USTP) | BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY — **August 2022 – June 2026**

CAPITOL UNIVERSITY | SENIOR HIGH SCHOOL – STEM (NURSING AIDE) — **August 2020 - 2022**

ACADEMIC PROJECTS

ExamSync V2.0 – Capstone Thesis | Entry-Level Full-Stack Developer - 2025 - 2026 | 1st and 2nd Semester

- Developed a web-based exam scheduling system to make plotting and managing schedules easier

Github Link: https://github.com/ithranbeor/exam-sync--V2.0-

LearnIT Platform – Applications Development and Emerging Technologies | Entry-Level Full-Stack Developer - 2024 - 2025 | 2nd Semester

- Gained practical experience despite limited prior full-stack background
- Built a web and mobile-based learning platform similar to YouTube, focused on IT-related educational content

MediSearch App and Web – Mobile Programming | Entry-Level Full-Stack Developer - 2024 - 2025 | 1st Semester

Created a mobile application similar to a map system for locating nearby and distant hospitals and clinics.
Included features for hospital search.
